

# COVID masks for little people

I met a wonderful young man who came to Canada on a youth exchange program from Kenya. (Christopher Omira is now back in Canada practicing in Northern Canada as a nurse, working in a First Nation's communities.) Upon his return home to Kenya he worked tirelessly to establish the Rain of Hope Early Child Care Development Centre. The centre's teachers are making a difference in the lives of these young lives. Every child must wear a uniform!!

This December Chris will return home for Christmas. When he told me of his school he mentioned he would like to take a few COVID masks. So I agreed to make masks for all the children and the teachers! Great fun, with every mask I could imagine those beautiful dark eyes behind every mask!! The fabric has wonderful designs that are child

Inspiring like the fruit, berries, alphabet, animals, flowers, crayons, numbers, bicycles, etc. The designs can be used as teaching tools ! Every mask will bear a Canada flag pin so they will know we care for them.

The fabric was donated by the great ladies at Vision United Church - Norma Bellamy, Anna Peters and Claudia Scherer. A generous amount from their boxes of fabric left over from quilts and other projects. Claudia and I met in Aulac wearing our masks and staying safe.

Merry Christmas everyone.

I hope you share this story with others.

– Pam Harrison
